Thanks for the note and the two clips. Today I received audio tapes of the ABC-Schiller show. I'll listen to the first and then you can have them if you'd like. If you want better quality your communications school people could provide it for the CBS and NBC shows that are coming....I suppose the second clip is from the Milton paper. Never thought to ask the students if they had one. If you write Bonnie Moody please thank her. On her question about Eddowes, I've not read the book. Lonnie Hudkins, who liked it, was going to send it to me. You probably know he printed it in England first. Best to all, HW 10/4/77
